Magnetic Clean and Care Instructions

Complements Of
A-1 Engraving and Signs Inc.
(810) 231-2227

Important Tips:

- Make sure the vehicle surface is clean and moisture free before applying any magnetic.
- It is recommended that the vehicle surface be waxed and allowed to cure for at least 48 hours before applying magnetic sign.
- For new or newly painted vehicles allow 90 days before applying any magnetic sign.
- Put magnetic sign on in warm weather if possible.
- Make sure that the signs are flat.
- Store signs flat when removing for storage
- Make sure to remove signs before any car wash.

(Failure to remove and clean both the magnetic sign and the vehicle surface on a daily basis could result in permanent damage).
