

## Gravoply 2

The micro thin .001" foil cap of Gravoply 2 allows for very fine detailed engraving. While this is perfect for small text and/or intricate logos required of many indoor applications, the thicker cap of Gravoply 1 may be better for many industrial applications where long-term cap durability may be put to the test. Gravoply 2 comes standard with a matte surface finish, but we now have Gravoply 2 Gloss available, which has a glossy clear protective cap layer.
